

Mr. Reeves:

This is the information I received from Warden Zook regarding your right to know request. This should complete your request.

Due to a recent court decision handed down by the US 3rd Circuit (of which we are a part) we will no longer honor ICE detainers as giving us legal authority to hold that inmate. We will enter it into the computer as a detainer and put a note on the initial Booking screen to notify ICE immediately if the inmates local charges are satisfied. If they are released on our local charges call ICE and tell them they have to be here to pick them up before midnight or the inmate will be released. Then make sure they are out the door before midnight one way or the other.

Cathy L. Romig
Mifflin County Chief Clerk
