

Mr. Reeves,

I received your RTK requesting ICE Detainer procedures. We do not have specific procedures written. I have attached some documents which we refer to. When and if we receive a prisoner that is not U.S. born, we contact ICE and they place a detainer on the prisoner. When their charges are disposed with our jurisdiction. ICE has 48 hours to retrieve the individual after our case is disposed.

If you should need any further information, please let me know.
